Georgina Santos
Senior Hiring Manager
UCSF Medical Center
(112) 233-4455
gsantos@youreemail.com

Dear Ms. Santos,

During my precept placement at Saint Francis Memorial Hospital, I received a personal letter of thanks from a patient for spotting a potentially life-threatening situation in the early stages. My excellent clinical knowledge and quick thinking allowed me to alert the supervising doctor and contributed toward saving the patient's life. I am excited to apply the same attention to detail as a nurse at the UCSF Medical Center.

UCSF's commitment to providing cutting-edge patient care using innovative research and technology excites me as a newly-qualified nurse. I know that you require a compassionate individual able to provide person-centered and attentive care to patients with complex conditions, and I believe that my recent achievements demonstrate my suitability for the role. These include:

- Achieving 98% positive patient feedback scores during my precept placement
- Receiving praise during every assessment cycle for my efficiency and knowledge of treatment pathways
- Achieving consistent scores of 90%+ for theoretical and practical assessments

I would like to attend an interview to explore how my outstanding care plan management skills and passionate work ethic can benefit your service users. Please get in touch to agree on a convenient time.

Sincerely,

Sheridan Bonilla

P.S. I would like to share how I achieved a 99% patient confidence rating on placement.
